FALL/WINTER TUNEUP

GOOD THRU MARCH 31st

- Check the heat exchanger for holes or cracks
- Check the ignitor
- Light and check the pilot where needed
- Check burners and do light cleaning if needed
- Check blower
- Check and tighten if needed electrical connections
- Clean and or Replace Customer Supplied Filters
- Monitor heater cycling
- Inspect Return and Supply to see if they are clean or if you need to get a quote on cleaning
- Check Thermostat operation
- For Electric Heat – Check Heat Strip Amps instead of checking burners and heat exchanger

Cannot be combined with other offers.
